

2026 - 2027 Tuition Payment Options

All tuition payments to Notre Dame Academy must be paid through your family's online tuition payment account with FACTS. Full payment and monthly payment options are available.

A link to NDA's FACTS website will be emailed by NDA to all new families. You must use this link to set up your payment account.

Full Pay

Full payment of tuition may be made online through FACTS by ACH bank account withdrawal at no charge, or by credit card with an additional processing fee. The payment must be created with payment scheduled for withdrawal no later than the full pay deadline of July 10, 2026.

Monthly Payment

Families may utilize a monthly payment plan through FACTS with the first monthly payment in July or August. Payments can be made over 10 or 11 months, to be completed by the end of the school year. A 3% financing fee will be charged for the monthly payment option, which is added into the monthly payments.

Important Note: If your family has a daughter entering NDA for 2026-27 as well as a current student at NDA, the family's 2025-26 FACTS account will be rolled over to 2026-27 and the incoming student will be added to the existing FACTS account.

Please do not set up a new account for a second daughter.

529 Education Savings Accounts

Families who utilize a distribution from a 529 savings account for Notre Dame Academy tuition must create a FACTS payment account.

The distribution check should be made payable to Notre Dame Academy and mailed to the Notre Dame Academy business office before the full payment date of July 10, 2026. The check will be applied manually to the FACTS payment account balance.

If the 529 distribution check fully covers the tuition balance, the full payment option should be selected when setting up the FACTS payment account.
